

# Decontamination Certificate:

Please help us protect our health and safety. We depend on you to apply the appropriate decontamination protocols if you have used hazardous materials.

**Important.** This Decontamination Certificate **MUST BE COMPLETED** and submitted before a Return Authorization can be processed.

**Return Authorization Policy:** Returned products will not be accepted without a Return Authorization Number. In accordance with industry best practices and corporate safety policies, all returned products **MUST BE DECONTAMINATED** prior to return. A completed DECONTAMINATION CERTIFICATE signed by your laboratory safety officer or other person authorized to certify decontamination of the product identified in the RETURN AUTHORIZATION NUMBER must be affixed to the outside of the shipping container certifying that the returned product is free of biological or chemical hazards associated with its use. In the event the DECONTAMINATION CERTIFICATE is not available, and the RETURN AUTHORIZATION NUMBER is not visible, the shipment will be denied and returned to the shipper at shipper's expense.
